# *Faith*

**Words and Music Paul J Burrell 2018**

**Solo**
When there's a distance in our lives
You're out of reach, not out of mind
I know I still believe you're just as real to me
'Cos faith will always keep you near
Dreams and passions I have known
But the trusting heart you've shown
Does not depend on things that come and go away
Faith is always here to stay

*Chorus* ***(ALL)***

***Speak through the earthquake, wind and fire and whisper in my heart***
***That faith is the strongest word that stays when we're apart***
***Keep holding on to the truth we know and never deny anymore***
***That I love you in every way like I've always done before***

***Solo***
Many thoughts go through my head
About the hard words people said
But did they ever know about the faith we share
And what the future holds ahead

***Chorus (All)***

**Solo**
I can't depend on just my feelings
I can't depend on touch alone (Oh, no!)
When you're far away, you love me just the same
And no matter where I am, I believe that you're there
I have faith that you're waiting somewhere

***Chorus (All)***

***(choir last line ends ' … Like I've always done before x2***
***then solo ' … Like I've always done before')***
