The Witch's Waltz

Words and Music © Paul J Burrell 2018

All

If the music wants to take you when the melody begins
Come and hold me very tightly when your mind gets in a spin.

Chorus

It's so nice when we're together,
And we're dancing round and round.
You feel light as any feather,
When your feet lift off the ground.

I've a feeling deep inside that you will never let me down,
While we're dancing close together with your senses off the ground

Chorus

Even if you feel so dizzy that you don't know where to turn,
You can trust that I will take you down the wrong path you will learn.

Chorus

(Additional descant part with last verse and chorus)

It's so nice when we're together
You feel light as any feather
And we're dancing round and round
When your feet lift off the ground
