

Back Here!

Words and Music Paul J Burrell 2020

(Solo)

Back here – there's a home for us
Right here – there is space for us
Back here - there is room for all of us to go
Right here – we will hope to make our future grow
Back here – there's a chance we'll all begin again
Right here – is the place where we'll not be afraid

Back here – is the world for us
Right here – something new for us
Back here – there's a chance another day will dawn
Right here – there's a new hope waiting to be born

Chorus (All)

**Back here – is the place we'll find our destiny
Right here – there is space where we can all be free
Keep me in this brave new world where we will see
Something, somewhere, somehow, back here for me**
