

Higher and Higher

Words and Music © Paul J Burrell 2020

(All - Verse 1)

Ready to go, it's time to get moving
Steady or not, this rocket is flying
Out of control, my whole world is shaking
Is this for real, or am I still dreaming?

Though on this night, the noise is so scary
I'll hold on tight, I have to keep steady
And even though they question my vision
Still I believe in the plan of this mission
Now I'm ready to go ...

Chorus (All)

**And I get higher and higher
As the world gets further and further
And the Milky Way looks amazing
As the stars get clearer, sharper, clearer, sharper, brighter,
Higher and higher
As the world gets further and further
And the Milky Way looks amazing
As the stars get clearer, sharper, clearer, sharper, brighter,
Clearer, sharper, clearer, sharper, brighter now
Brighter now, brighter now.**

(Solo - Verse 2)

Don't fight for control, just trust in the system
You have to let go, and give up resistance
In hyperspeed mode, there's no way of knowing
What I should do or where I am going

Out here at last, the earth is behind me
Moving so fast with no one to guide me
Planets go by, I'm moving like lightening
Asteroids pass so fast it is frightening
Now I'm ready to go

Chorus (All)

Middle 8 (Solo)

Far, far away is a galaxy of wonder
Carry me away to my dream for the future

Chorus (All)
