

Out There! (Song)

Words and Music Paul J Burrell 2020

(Solo)

Out there – there’s a home for us
Somewhere – out in space for us
Out there - there is room for all of us to go
Somewhere – we will hope to make our future grow
Out there – there’s a chance we’ll all begin again
Somewhere – there’s a place where we’ll not be afraid

Out there – there’s a world for us
Somewhere – something new for us
Out there – there’s a chance another day will dawn
Somewhere – there’s a new hope waiting to be born

Chorus (All)

**Out there – is a place we’ll find our destiny
Somewhere – out in space where we can all be free
Take me to this brave new world where we will see
Something, somewhere, somehow, out there for me**

(Solo)

Out there – though it seems so far
Somewhere - near a waking star
Out there – we will find a home where we can stay
Somewhere – ready to begin another day

Chorus (All)

Instrumental

Second half of chorus (All)

**Take me to this brave new world where we will see
Something, somewhere, somehow, out there for me**
