

# Then Something Happened

*Words and Music by P J Burrell 2025*

*Section 1*      Then something happened in the stillness of the night  
A hidden secret brought a miracle to light  
Deep in the silence you could hardly guess  
That a new life had begun  
A new beginning in the stillness of the night.

*Section 2*      Out there in the forest alone  
Out there in the world on your own  
Look in the shadows  
There's a creature creeping out into a world  
Full of bright new surprises to see.

*Section 3*      Here in the darkness the world seems so frightening  
But out there the silvery moon is still shining  
There's hope and security for those who follow  
A pathway that leads safely home.
